Put Decades Of Advertising Experience To Work For Your PPC TAC Professional PPC (Pay Per Click) Advertising Placement & Management

PPC (Pay Per Click) advertising is the most accountable form of advertising ever!

TAC has decades of experience in placing advertising in all forms of media; print, radio, television and transit. But in all those media nothing can compare to PPC advertising for accountability and tracking direct results. With PPC you know exactly how many people saw your ad(s), and you only pay when someone responds and clicks on your link.

Experience and Creativity play a huge role

There's more to it than just putting up an ad and paying for it to run. With PPC advertising you are essentially competing with other advertisers for the same key words or phrases. Just as there is a complex set of conditions that decide the fate of your regular listings on search engines, getting effective display of your PPC ad requires skill in the creation and placement of your ad(s). Display variables including your ad "quality score", relevancy of the ad wording, relevancy of the link it refers to, and more. The same skill is required to maintain and keep your ad displaying properly as other advertisers and conditions change. TAC has the experience and creativity that can make the difference in your PPC efforts.

PPC Advantages:

- **Set Any Size Budget**
\$10/week, \$100/week, \$1,000/week whatever you desire as your budget.
- **Geographic Targeting**
Run ads just in your area, just in your state, the whole US, or world wide.
- **Any Key Word(s) or Phrase(s)**
Choose the key word(s) or phrase(s) you want your ad to appear when searched.
- **Any Length Campaign**
We can run your ad for just one day, week, month, or keep it running continuously.
- **Any Search Network**
TAC works with Google, Bing, Yahoo, and their affiliated search and PPC networks.
- **Multitask Advertising**
Run different ads under different key words to achieve multiple goals at the same time.

TAC Has The Experience & Creativity To Energize All Your Website PPC Advertising
